Managed protection, lower cost from Scarsdale Premier Services

Retail

Commercial/Industrial

Property Management

Hospitality

Education

Government

Retail

Protect your premises, enhance transaction optimization, and improve ROI for global retailers and neighborhood stores. In addition to employee and inventory security, retailers get enhanced loss prevention measures such as video and audio customer interaction, remote bag check, unattended delivery monitoring, contractor and staffing supervision, Sweetheart monitoring, BOLO and more.

Commercial/Industrial

Save on security monitoring and employee safety while enhancing your ROI. Premier Services intelligently addresses every security problem in your offices, work areas, warehouses or yards. Premier Services also provides comprehensive remote administration and monitoring for Access Control and credentials management.

Property Management

Get enhanced monitoring, improved safety and a better ROI. Consider Premier Services for offices, shopping centers, warehouses, apartment buildings and yards. Property management professionals and tenants benefit from video alarm verification, remote Doorman or Concierge Services, and remote access control and administration.

Education

Education professionals can rest easier with video-enhanced security services such as virtual escorts, instant video assist, BOLO alerts, visitor identification and remote guard tours. Premier Services also enhances disaster response and recovery, remote Access Control, opening and closing, and unattended delivery. Meet every security concern you may have with the industry's best suite of tools.

Hospitality

Hospitality industry managers benefit from and enjoy improved ROI with video-enhanced capabilities such as virtual escorts, surrounding grounds supervision, reduced valet parking nuisance claims and time clock fraud.

Government

Government facilities, large or small, can immediately benefit from the cost saving capabilities, scalability and flexibility of the Premier Services suite of advanced security tools.

Scarsdale Premier Services. Capable. Flexible. Affordable.

Remote Security as a managed service saves time and money, improves ROI and protection for any enterprise

Scarsdale Premier Services remotely manages and administers stand-alone, enterprise-wide or integrated security, Access Control and video systems for any size business or facility. Employing a flexible, scalable platform, these services reduce costs with a focused suite of tools to target your security concerns. Your bottom line is greater ROI and better protection for your employees, facilities and property.
